By using a proxy with voting instructions, the shareholders will vote on the specific issues without personal attendance. Physical attendance increases the risk of infection spreading. Gentian Diagnostics AS wants to contribute to reducing the spread of COVID 19 and we hope our shareholders will support this by not physically attending the general meeting.

The general meeting will be opened by the chairperson of the board, Tomas Settevik, or a person authorised by him, who will make a record of attending shareholders.

The board suggest the following agenda for the general meeting:

- 1 ELECTION OF A PERSON TO CHAIR THE MEETING**

As it is a condition for listing on Oslo Børs that the Company is organised as a Norwegian public limited liability company, the board of directors proposes that the Company is converted into a Norwegian public limited liability company and that the name is changed to "Gentian Diagnostics ASA". The proposal entails that others than the shareholders or certain named persons may subscribe for new shares in the Company. The conversion to a public limited liability company will have the effect that the Company will be governed by the provisions of the Norwegian Public Limited Liability Companies Act. This will, *inter alia*, have the following consequences in the form of changed legal framework:

- The Company may carry out share capital increases by issue of shares by invitation to an indefinite circle or by public subscription invitation.
- The minimum required share capital will be increased from NOK 30,000 to NOK 1,000,000.
- The Company is required to have a CEO/general manager.
- Both genders must be represented on the board of directors.
- The notice period for convening a general meeting must be at least two weeks (21 days with effect from the listing on Oslo Børs).
- The Company's designation "AS" must be changed to "ASA".
- The Company's shares must be registered in a central securities register.
- Stricter requirements with respect to contribution in kind, transactions with related parties as well as mergers and demergers will apply.
- The Company must comply with the accounting rules for large enterprises, cf. section 1-5 of the Norwegian Accounting Act.
- The shares of a public limited company are freely transferable unless otherwise set out in the articles of association.

Of the above-mentioned requirements, the Company already fulfils the requirements for having minimum share capital of NOK 1,000,000, a CEO, both genders represented on the board of directors, and registration of the Company's shares in the central securities register.

An auditor report prepared in connection with the conversion is attached hereto as [Appendix 4](#).

On the basis of the above, the board of directors proposes that the general meeting adopts the following resolution:

The Company shall be converted to a public limited liability company (ASA), in accordance with chapter 15 of the Private Limited Liability Companies Act. The Company shall invite investors other than the shareholders or named individuals to subscribe for shares in the Company.

Section 1 of the Company's articles of association is amended as follows:

"The name of the company is Gentian Diagnostics ASA. The company is a public limited liability company".

12 NOMINATION COMMITTEE

The Company intends to comply with the recommendations set out in the Norwegian code of practice for corporate governance. Pursuant to the Norwegian code of practice for corporate governance, the Company should have a nomination committee that is elected by the general meeting, that this is set out in the articles of association and that the general meeting should stipulate instructions for the nomination committee.

The proposed Instructions for the Nomination Committee are attached hereto as Appendix 5.

Based on the above, the board of directors proposes that the general meeting adopts the following resolution:

The Company's nomination committee shall be reflected in the articles of association with effect from the registration of the conversion of the Company into a Norwegian public limited liability company in the Norwegian Register of business enterprises. From this time, section 6 in the Company's articles of association is amended as follows:

"The company shall have a nomination committee, elected by the general meeting.

The nomination committee shall consist of two to four members elected by the general meeting, where the majority of the members shall be independent of the board and the management. The members of the nomination committee, including the chairperson, will be elected by the general meeting for a term of one year unless the general meeting decides otherwise in connection with the election.

13 AMENDMENTS OF THE ARTICLES OF ASSOCIATION

In addition to the amendments to the articles of association proposed under item 9 (conversion to public limited liability company) and 12 (nomination committee), the board of directors proposes that the general meeting adopts a resolution to amend the Company's articles of association in order to facilitate the Company's listing on Oslo Børs. The proposed amendments to the articles of association will enter into force as of the time the conversion to a public limited liability company has been registered with the Norwegian Register of Business Enterprises.

On this basis, the board of directors proposes that the general meeting passes the following resolutions:

Section 5 of the articles of association on the CEO is removed and the numbering of the other provisions in the articles of association is updated accordingly.

New section 5 of the articles of association on the board of directors is amended by removal of third, fifth, sixth, seventh, eighth and ninth paragraph, and shall read as follows:

A complete version of the proposed new articles of association are included in [Appendix 6](#).

14 BOARD AUTHORISATION - SHARE CAPITAL INCREASE

The board of directors is of the opinion that it would be advantageous that the board is granted an authorisation to increase the share capital of the Company for general purposes to give the board the necessary flexibility and possibility to act promptly, e.g. in the event the Company needs to strengthen its equity or if the Company shall issue consideration shares in connection with an acquisition.

The board's proposal is that the board is granted an authorisation to issue a number of shares that results in an increase of the current share capital of up to 10% of the share capital. In order to fulfil the purpose of the authorisation, the board decided to propose that the shareholders' preferential right to subscribe new shares may be deviated from.

Based on the above, the board proposes that the general meeting adopts the following resolution:

- a. The board of directors is authorised to increase the Company's share capital by up to NOK 154,118.89 in one or more instances.*
- b. The authorisation may be used in connection with strengthening the Company's equity and to issue new shares as consideration in business acquisitions. The board of directors is authorised to determine any further terms applicable to the share capital increase(s)*
- c. The shareholders' preferential rights to subscription of new shares may be deviated from.*
- d. The authorisation comprises share capital increases against contribution in kind and the right to incur specific obligations on behalf of the Company.*
- e. The authorisation comprises capital increases in connection with mergers.*
- f. The authorisation is valid until the Company's annual general meeting in 2022, but not later than 30 June 2022.*

15 BOARD AUTHORISATION – EMPLOYEE SHARE PURCHASE PROGRAM

The Company wish to have the opportunity to carry out a share purchase program in which all employees in the Company and its subsidiaries are given the opportunity to subscribe for new shares in the Company with customary discounts and terms for such program. The purpose of the share purchase program is to create incentives for the employees to contribute to value creation in the Company, which is to the benefit of both the Company and the shareholders.

It is contemplated that a program will comprise of approximately 15,000 -20,000 new shares in the Company. In order to ensure flexibility with regards to timing of the share program and without calling for an extraordinary general meeting for approval, the board of directors proposes that the annual general meeting grants the board with an authorisation to issue shares in the connection with a share purchase program for employees on terms further stipulated by the board. In order to carry out a share purchase program by issuance of new shares directed only to employees, it is necessary to deviate from existing shareholders' preferential rights.

On this background, the board of directors proposes that the general meeting makes the following resolution:

- 1 The board of directors is authorised to increase the Company's share capital by up to NOK 3,000 in one or more instances.*
- 2 The authorisation may be used in connection with share purchase program for employees in the Company and its subsidiaries. The board of directors is authorized to determine any further terms applicable to the share purchase program and the appurtenant share capital increase(s).*

The registration and proxy authorisation forms are enclosed with this notice as Appendix 1 and Appendix 2, respectively.

Each share in the Company carries one vote at the general meeting and all shares have equal rights. At the date of this notice, the Company has 15,411,889 shares, each with a nominal value of NOK 0.10. The Company does not own any shares in the Company.

Shareholders may suggest resolutions for the items on the agenda and may ask the board members and the general manager to provide the necessary information on matters that may affect the evaluation of the items that have been presented to the shareholders for decision, the financial position of the Company and other items up for consideration by the general meeting. 2 PURPOSE, PROCESS AND ALIGNMENT WITH BUSINESS STRATEGY

The main purposes of the management and key personnel remuneration are to attract and retain management and key personnel with relevant experience, expertise and advanced leadership skills, to allow shareholders to influence parameters of the salary and other kinds of remuneration, and to stimulate to a culture for remuneration that promotes the Company's business strategy and long-term interests and sustainability. The remuneration to management and key personnel shall promote the achievement of results and leadership in accordance with the Company's values and shall reflect the content and the complexity of the position as well as the performance of the individual.

In preparing these guidelines, considerations were also given to remuneration components and employment terms of the Company's other employees in addition to increase and growth over time in the remuneration. Such elements have formed a part of the board's basis for decision when assessing whether the guidelines are reasonable.

These guidelines aim to provide a clear framework for remuneration of management and key personnel aligned with the Company's business strategy and long-term interests and long-term growth in shareholder value.

3 THE MAIN PRINCIPLES OF THE REMUNERATION POLICY FOR MANAGEMENT AND KEY PERSONNEL

Remuneration to management and key personnel shall be determined on the basis of the following main principles:

- The Company should not be a wage leader, but the management and key personnel shall be offered competitive salary.
- The compensation arrangements should be easy to manage and understand, long-term and possess flexibility.
- The total compensation arrangement should be linked to the Company's earnings and performance, and to the individual elements of the personal terms.

4 TYPES OF REMUNERATION AND PRINCIPLES

4.1 Overview

In general, the total remuneration package for management and key personnel consists of a fixed base salary, pension and insurance coverage, variable salary and other benefits.

The variable salaries are suitable to motivate, retain and reward individuals, and shall be based on responsibilities, expertise and performance. Variable salary consists of bonus arrangements, share-based incentives and other benefits. The Company resolved a share-based option program for management and key personnel on 14 May 2018.

4.2 Base salary

Management and key personnel are offered a fixed base salary at a level considered competitive and comparable to similar positions and companies. The level of fixed salary is to be reviewed regularly, usually annually.

4.6 Further information on share-based compensation

4.6.1 General guidelines for share-based compensation

The long-term incentives of Gentian (**LTI**) consist of a share price-related option program for management and key personnel. Under the share option program, options may be allocated to the management and key personnel. The options entitle the option holder to purchase a defined number of shares to a pre-defined value after a specific period. The Company may decide settlement in cash. Settlement in shares is conditional upon an authorisation from the general meeting for a share issue. The exercise will normally lead to a gain. Compensation related to LTI are structured with limitations in order to ensure superior objectives.

The board will determine the detailed criteria of the share option program and agreements.

The board and the remuneration committee will ensure that the grant and management of the share option program are in accordance with the intentions and guidelines.

- Ensure that key employees have access to a compensation scheme that contributes to a long-term employment relationship in the Company
- Contribute to the expectation that key employees hold a portfolio of Gentian shares that can make a significant contribution to total compensation
- Create a common ownership perspective between shareholders and the management and key personnel when the value development in the Company is an essential part of total compensation

 - The employee is difficult to replace and is an attractive resource for other companies

The rights of the scheme are valid only as long as the resource is employed in the Company. The scheme is independent of position and is not automatically repetitive.

Annual and total allocation

Annual allocation of options is to be resolved by the board of the Company in order to optimize the effect of the allocation(s). The total number of outstanding options cannot exceed 5.0% of the outstanding shares of the Company.

Gain limits

The option shall have a pre-defined "strike price". The strike price shall be adjusted for dividends and other relevant share capital ratios (e.g., issues).

- 1/3 of the options granted no earlier than 2 years after allocation

Settlement in shares is subject to seeking an authorisation from the general meeting for a share issue and/or share buy-back. Pursuant to the vesting schedule, 1/3 of the options will vest 24 months after the day of grant, 1/3 will vest 36 months after the day of grant and 1/3 will vest 48 months (as long as the option holder is still employed). The CEO has no period of notice. The CEO is entitled to a settlement pay equivalent to six months' basic salary in the event of dismissal. Other management and key personnel are entitled to three- or six-months' notice.

Agreements may be signed regarding severance pay for other management and key personnel in order to ensure that the selection of management accords with the Company's requirements. Possible severance agreements are drawn up in a way which is acceptable both internally and externally. In addition to pay and other benefits during the period of notice, such arrangements must not confer the right to severance pay for a period exceeding 12 months.

For certain management and key personnel, agreements with non-competition clauses have been entered into. If the Company chooses to invoke such non-competition clause, management and key personnel may be entitled to compensation equal to up to 12 months base salary without a cap of 12 times the National Insurance basic amount (G).

6 PERSONNEL REMUNERATION IN THE GROUP

However, the total remuneration shall be relevant to support the Company's business strategy, long-term interests and sustainability, and the terms shall be adapted to binding legislation, regulations and practice in the market concerned.

8 DEVIATION FROM THESE GUIDELINES

The principles in these guidelines are binding for the board from the time they are approved by the general meeting.

The board may nevertheless decide to deviate entirely or partly from the guidelines in individual cases provided that there are special circumstances that make such deviation necessary in order to satisfy the long-term interests of the Company or to ensure the financial viability of the Company. Any deviation from the guidelines shall be approved by the board of directors and reported in the remuneration report for the relevant year. If deviation has continued so that it cannot be deemed temporary, the Company shall prepare new guidelines to be presented at the next possible general meeting.

Any substantial change to the guidelines and principles for remuneration to the management and key personnel, shall be presented and explained by the board and approved by the general meeting. In any case these guidelines shall be reviewed and approved by the general meeting at least every fourth year.
